

Center for Professional & Applied Ethics

SERIES ON PRECISION MEDICINE

Supported by NC Biotech

(All events will be lunch workshops, 12:30-2:00, at the UNC Charlotte main campus)

Feb. 16: Gabriel Lázaro-Muñoz (PhD, JD, MBE, Postdoctoral Research Associate, Center for Genomics and Society, UNC-Chapel Hill School of Medicine; will be Asst. Prof. at Baylor College of Medicine starting mid-Spring).

- Location: Cone 111
- Examines challenges associated with conducting psychiatric genomics research with severely mentally ill populations, and integrating genomics into psychiatric care and prevention.

April 5: Kristin Newby (Prof. Cardiology at Duke, and PI of the MURDOCK Study)

- Location: Cone 113
- Works on the intersection of precision medicine and cardiology (and risk stratification within cardiology), as well as diet.

April 18: Nathaniel Comfort (Baruch S. Blumberg NASA/Library of Congress Chair in Astrobiology at the John W. Kluge Center Professor, Department of the History of Medicine, Johns Hopkins University)

- Works on the history of medical genetics
- Location: TBA
