Max Liboiron (Assoc. Prof. Geography, Director of CLEAR, Memorial University, Newfoundland) presents as the sixth and final speaker for the Ethics Center's 2020-21 series, Models for Equitable Minority Inclusion in Institutional Research.

About the Series: Because citizen science work often operates outside of institutional channels, it often faces difficulties when it intersects with institutional structures, often disproportionately hurting minoritized communities and those not traditionally served by academic and institutional research models. In this series, we explore this intersection with an aim of understanding how community participation can be made more equitable and just. Previous speakers included Nikita Shiel-Rolle, Pepijn Al, Omega Wilson, Alex Pearlman, & Angelique Harding.

22 MAR | 1-2pm | Zoom*
